PARKS  
PRESERVATION · RECREATION

# ANNUAL REPORT 2020–2021

## From the Director

### YEAR AT-A-GLANCE

**\$25.7** million  
TOTAL EXPENDITURES

**34**  
PRESERVES

**43**  
PARKS AND FACILITIES

**17,900**  
OPEN SPACE ACRES

**143**  
SEASONAL AND  
FULL TIME EMPLOYEES

A tiny Rufous hummingbird flies thousands of miles from Alaska to Mexico twice a year, stopping over in California during spring. The inner compass of these brilliant birds holds them true to their destination, whatever challenges they face along the way. Entering the third year of a pandemic, we are all tasked with flying through turbulence while holding our course. At Parks, true north has always been caring for Marin's beautiful outdoor spaces, to support recreation and preservation for Marin residents and visitors from across the Bay Area.

Now more than ever, parks and open space support community well-being. There is science to prove it. A recent study found people who spend at least two hours a week in green spaces report better physical and psychological health. The improvement in wellness was universal, regardless of age, ethnicity, or health status. Open space and park rangers see evidence of this every day, in the faces of neighbors hiking, biking, or horseback riding on roads and trails, and in the joy of families giving children room to run across a park lawn close to home.

The constraints of the pandemic have not deterred Parks' commitment to taking care of what we have. Field staff are on the job seven days a week—maintaining roads and trails, welcoming visitors at the gatehouse, preparing picnic areas. We continue addressing deferred maintenance, advancing larger scale projects aimed at sea level rise resilience, and extending organization capabilities to help manage the risk of wildfire in a changing climate.

As we approach the ninth year of Parks Measure A, and the 50th anniversary of the Marin County Open Space District, we checked in with Marin residents using a county-wide survey. Thousands of survey responses reinforced the deep connection people in Marin have to their treasured public parks, coastal beaches, and open space lands. Whatever storms blow through, that shared connection and commitment will keep us alive to the sound of hummingbird wings. We look forward to continuing our collaboration with the Marin community, other Bay Area land managers, and fellow government agencies on taking care of what we have.

A handwritten signature in black ink, appearing to read 'Max Korten'.

**Max Korten, Director**  
Marin County Parks

# 2020–2021 Project Highlights

Close to a mile of the heavily trafficked **Mill Valley/Sausalito Pathway** near Gate 6 Road was improved with micro-resurfacing, for ease of travel and public safety.

**Rush Creek Trail Improvements** upgraded east side hiking and multiuse trails, improved equestrian access, and decommissioned a steep trail to restore habitat.

Puncheons were replaced in two locations on the popular **Deer Island Loop Trail** in Novato, for visitor safety and erosion control.

Over twenty **Dog Waste Stations** were installed, to tackle poo-lution at priority locations in open space preserves. Signage was designed to encourage use of the stations.

**100 acres were grazed in Terra Linda/Sleepy Hollow**, helping to manage mixed vegetation, maintain a fire fuel break, and maintain defensible space near homes. In recent years, Parks scientists have collected data to optimize effective use of grazing in vegetation management.

**Black Point Boat Launch** received a refresh, with a new metal shade structure, wood picnic tables, bait cutting table, bicycle racks, landscaping, and irrigation system.

With feedback from the community, the conceptual design phase of **Evolving Shorelines** was completed. These adaptation plans, in collaboration with One Tam, aim to make the rich habitats and public access trails in Bothin Marsh Preserve resilient to sea level rise.

A multi-year initiative to study the **reintroduction of a rare clover species** (*Trifolium amoenum*) on Ring Mountain continued. This data, along with other native plant observations, is informing the management of sensitive serpentine grasslands and the rare plants that grow in serpentine soils.

# FY 2020–21 Revenue & Expenditures

## TOTAL EXPENDITURES BY BUDGET AREAS

- PARKS
- OPEN SPACE
- MEASURE A
- CSAs

## MEASURE A OVERSIGHT

In FY 2020–21, seven committee members appointed by the Board of Supervision monitored Measure A expenditures, assisted with audits, and approved the annual report:

Robert Berner  
Michael Dybeck  
Larry Kennings  
Joe Meylan  
Mary Stompe  
Dan Russell  
Jeff Williams

Each year Measure A funds undergo two compliance audits. The Marin County Department of Finance audited organizations other than Marin County Parks that receive Measure A funding. Badawi and Associates audited Marin County Parks and will issue a report in February 2022. Audit reports are available on [marincountyparks.org](http://marincountyparks.org).

This table summarizes actual revenues and expenditures handled by Marin County Parks.

	PARKS	OPEN SPACE	MEASURE A	CSAs

# FY 2020–21 Financial Information

## Marin County Parks Expenditures and Set Aside for Land Acquisition FY 2020–21

### PARKS, OPEN SPACE, AND MEASURE A

#### SERVICES & SUPPLIES BY PROGRAM

- PARK FACILITIES & LANDSCAPE
- VEGETATION MANAGEMENT & FIRE FUEL REDUCTION
- VISITOR SERVICES
- PUBLIC ENGAGEMENT & EQUITY
- ROAD & TRAIL MANAGEMENT
- ADMINISTRATION
- WETLAND & EROSION CONTROL
- SCIENCE & RESEARCH
- REAL ESTATE & ACQUISITIONS

#### NUMBER OF EMPLOYEES

- SEASONAL
- PARK FACILITIES & LANDSCAPE
- VISITOR SERVICES
- ADMINISTRATION
- ROAD & TRAIL MANAGEMENT
- NATURAL RESOURCES
- COMMUNICATIONS
- EXECUTIVES
- SCIENCE & RESEARCH
- REAL ESTATE & ACQUISITIONS

## Measure A Expenditures and Set Aside for Land Acquisition FY 2020–21

### PARKS AND OPEN SPACE

#### SERVICES & SUPPLIES BY PROGRAM

- VEGETATION MANAGEMENT & FIRE FUEL REDUCTION
- PARK FACILITIES & LANDSCAPE
- PUBLIC ENGAGEMENT & EQUITY
- SCIENCE & RESEARCH
- WETLAND RESTORATION & EROSION CONTROL
- ADMINISTRATION
- ROAD & TRAIL MANAGEMENT
- REAL ESTATE & ACQUISITIONS

#### NUMBER OF EMPLOYEES

- SEASONAL
- PARK FACILITIES & LANDSCAPE
- VISITOR SERVICES
- NATURAL RESOURCES MANAGEMENT
- ADMINISTRATION
- COMMUNICATIONS
- ROAD & TRAIL MANAGEMENT
- SCIENCE & RESEARCH

### LAND ACQUISITION

In FY 2020–21, no funds were expended on land acquisition. \$2.1M was allocated to land acquisition set aside, with total set aside at the end of FY 2020–21 \$6.4M.

### CITIES AND TOWNS

Marin's 19 cities, towns, and applicable special districts received \$2.3M in Measure A funds in FY 2020–21 for fire fuel vegetation management, neighborhood park renovations, maintenance, and staff.

### FARMLAND PRESERVATION

Marin Resource Conservation District (RCD) receives 5% of Farmland Preservation funds to support resources on easement-protected agricultural lands. RCD matches other grants to maintain soil and water quality, water supplies, and fencing. RCD received \$145,649 in FY 2020–21.

In FY 2020–21, the Marin Agricultural Land Trust returned \$11,025 to the Farmland Preservation program.

# 2020–2021 Strategic Achievements

## WILDFIRE RISK REDUCTION

2198

Acres treated for fire fuel reduction and invasive species control

1867

Acres grazed by livestock to reduce fire fuel

15

High priority vegetation management projects working in collaboration with Marin County Fire

## COMMUNITY ENGAGEMENT

858k

Page views on the website [marincountyparks.org](http://marincountyparks.org)

2700

Parks Community Survey responses

24

Public board and commission meetings

## HABITAT PRESERVATION

374

Invasive plant populations removed by the Early Detection, Rapid Response team

227

Wildlife surveys for nesting, roosting, and inventory assessment

8190

Linear feet of decommissioned trail for habitat restoration

## OPEN DATA

Open Government Data is a philosophy that promotes transparency, accountability, research, and analysis by making government data available to all.

Marin County Parks participates in the County of Marin Open Data initiative, available online at [data.marincounty.org](http://data.marincounty.org).

This includes the Open Data portal with a wide range of County data sets, Marin Compass, Community Indicators, and department specific data pages, part of a performance management initiative designed to foster a culture of continuous improvement and learning, as well as Marin GeoHub, which offers geographic information.

## DIGITAL INFRASTRUCTURE

The multi-year COVID pandemic elevated the importance of open spaces and green places. It also accelerated the use of digital tools for virtual transactions, communications, and collaboration.

Like many individuals and organizations, Marin County Parks pivoted as needed to strengthen digital infrastructure. This

allowed Parks to maintain quality public service, strengthen community engagement, and support public health guidance.

Digital infrastructure initiatives included:

- Migrating board and commission meetings to virtual or hybrid sessions, with multi-modal access as needed via digital application, audio telephone, online video stream, public television simulcast, and closed captioning.
- Releasing an online community survey to gather and analyze feedback from Marin residents to help guide future priorities for parks and open space.
- Investing in an upgrade to online self-service group reservations, designed to make it easier for visitors to reserve park picnic areas and other facilities.
- Collaborating with One Tam partners on high tech geo-mapping of the County's topography, physical and biotic features, diverse plant communities, and habitats to support wildfire risk reduction and other planning purposes.

# Measure A: Caring For What We Have

52%

**Parks and Open Space**

20%

**Farmland Preservation**

15%

**Cities and Towns**

13%

**Land Acquisition**

**Measure A protects the parks, open space, and farmland that make Marin County an extraordinary place to live, work, and play.** In 2012, Marin voters approved a one-quarter of one percent sales tax (County Ordinance 3586) to support parks, open space, and agricultural lands across Marin. By law, funds raised by Measure A must be spent on parks and open space, farmland preservation, recreation in Marin's nineteen cities and towns, and land acquisition. Measure A also funds over \$100,000 annually in community grants, extending opportunities for people of all ages and abilities to enjoy parks and preserves through local non-profit organizations.

## Measure A Expenditures FY 2014–21

**As of FY 2020–21, Measure A has been in effect for eight years and has generated \$106.7 million.** These funds are being used to address deferred maintenance in parks and preserves, finance agricultural easements that protect ranches and farms, support outdoor recreational programs in cities and towns, and help Marin adapt to climate change.

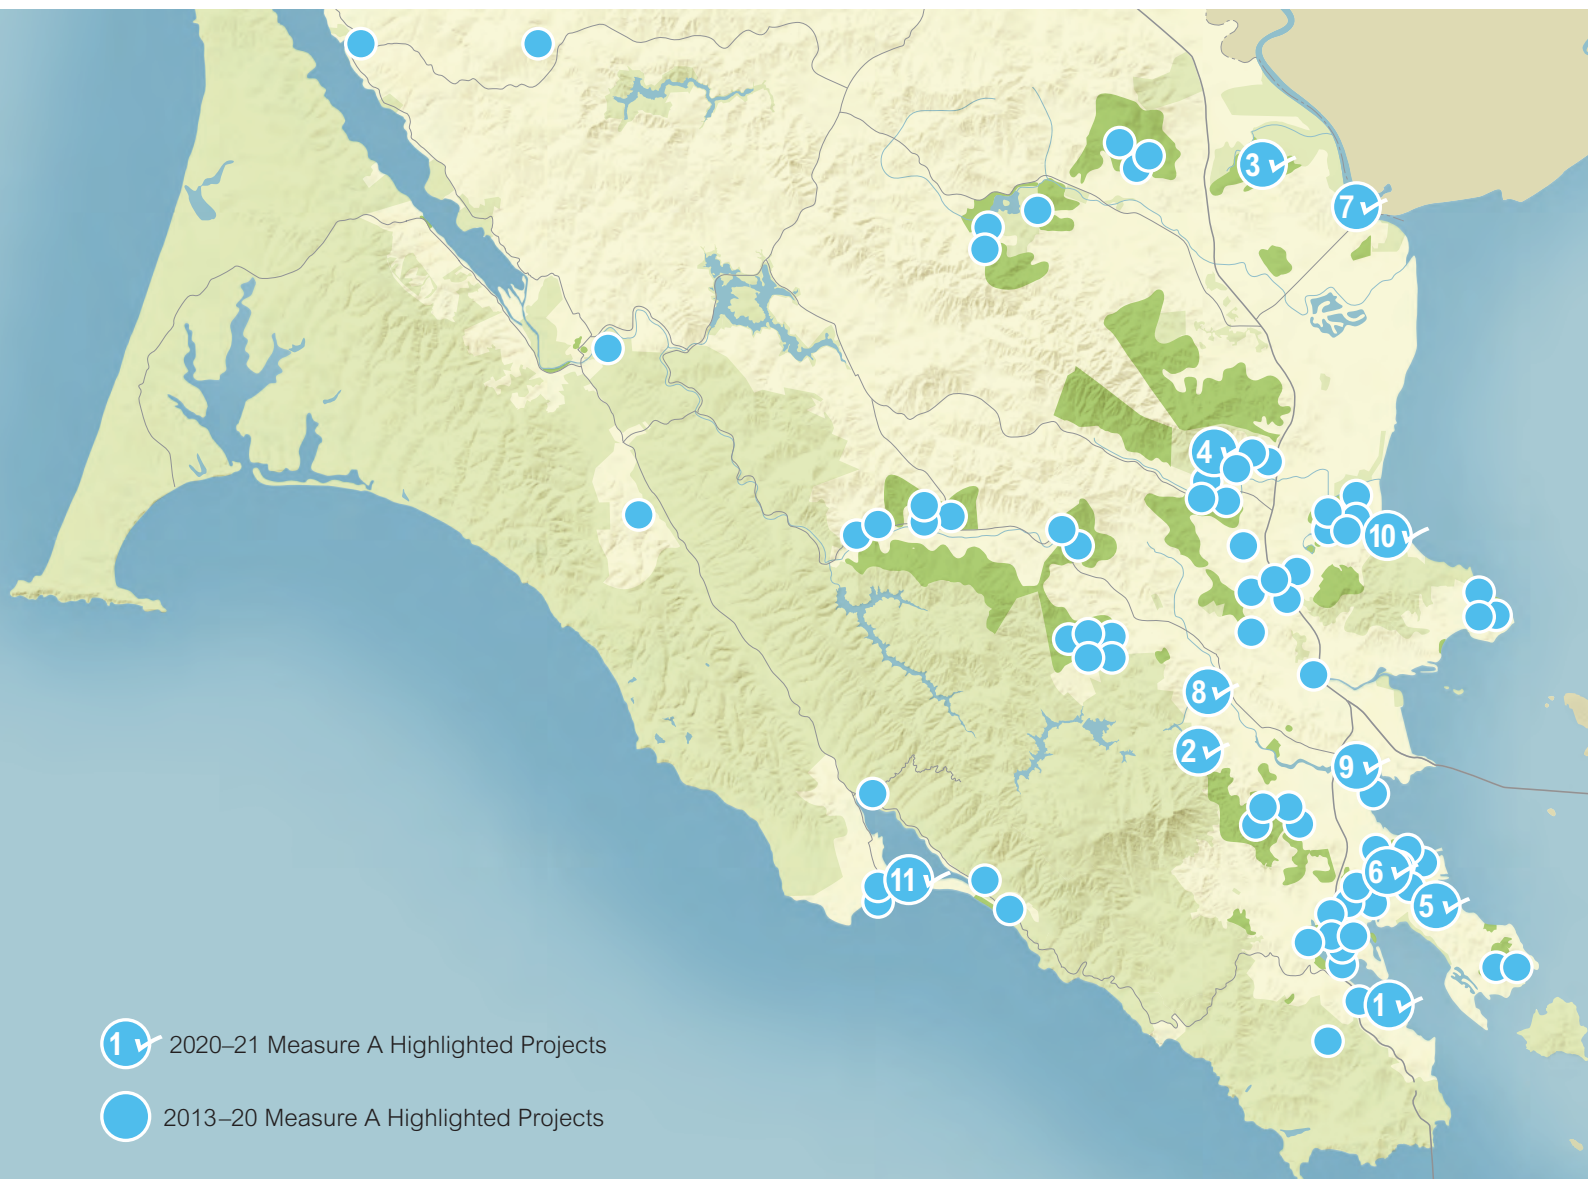

## Support for Cities, Towns, and Special Districts

Measure A provides funding for parks, open space, and recreation facilities across the county. Measure A helps cities, towns, and special districts maintain parks, open space, and recreational programming. To date \$16.2M dollars have been granted for recreation in Marin cities and towns

CITIES	TOWNS	SPECIAL DISTRICTS
Mill Valley	Belvedere	Bel Marin Keyes CSD
Novato	Corte Madera	Bolinas Firehouse
San Rafael	Fairfax	Community Park Agency
Sausalito	Larkspur	Marin City CSD
	Ross	Marinwood CSD
	San Anselmo	Muir Beach CSD
	Tiburon	Strawberry Recreation District
		Tamalpais CSD
		Tomaes CSD

# Highlighted County-wide Projects Enhanced by Measure A

- |  |  |  |

| 1 Mill Valley Sausalito Pathway microresurfacing     | 5 Region 6 road and trail designation                      | 9 Evolving Shorelines Bothin Marsh conceptual design completed                 |
| 2 Kent Woodlands vegetation management               | 6 Rare clover reintroduction on Ring Mountain              | 10 Buck's Landing phase 1 improvements   |
| 3 Rush Creek east side trail improvements            | 7 Black Point Boat Launch improvements                     | 11 Ocean Protection Council grant awarded for Bolinas Wye Wetlands Resiliency. |
| 4 Terra Linda/Sleepy Hollow defensible space grazing | 8 Homestead Valley Community Center pool area improvements |  |

In the late 1960s, large-scale development plans energized Marin residents to protect the natural beauty of the county. A grassroots group, People for Parks and Open Space, began advocating for a ballot measure. In 1971, the County Planning Department prepared *Can the Last Place Last? Preserving the Environmental Quality of Marin*, a report which offered a vision for land preservation.

On November 7, 1972, Marin voters passed ballot Measure A, creating and funding the Regional Park and Open Space District. Spurred by voters, the Board of Supervisors adopted a Marin Countywide Plan outlining the importance of maintaining recreational corridors, coastal areas, and rural agricultural lands. Check the [marincountyparks.org](http://marincountyparks.org) calendar, to join 50th anniversary events.
