

VEGETATION MANAGEMENT

Fuels, Weeds, Biodiversity

Goals: Community Wildfire Safety

Goals: Multiple Benefits

Fuels: defensible space protects homes

Weeds: target disturbed/weedy edges

Biodiversity: buffer to interior preserve

Implementation: Emergency Access

Fuels: keep fire roads open for access

Weeds: EDRR along routes of dispersal

Biodiversity: keep interior healthy/resilient

Implementation: Tam Crew

Fuels: limb trees, burn piles

Weeds: prevent spreading

Biodiversity: create resilient habitats

Building New Capacity

- Career Ladders – into fire and ecological careers
- Skills training (fuels, weeds, biodiversity)
- Equity, Diversity, Inclusion
- One Tam Partnership
